Magruder Substation

Dominion Energy is committed to keeping you informed of upcoming work in your community. You are receiving this postcard because the Magruder Substation in the City of Hampton, Virginia, is scheduled for a security upgrade.

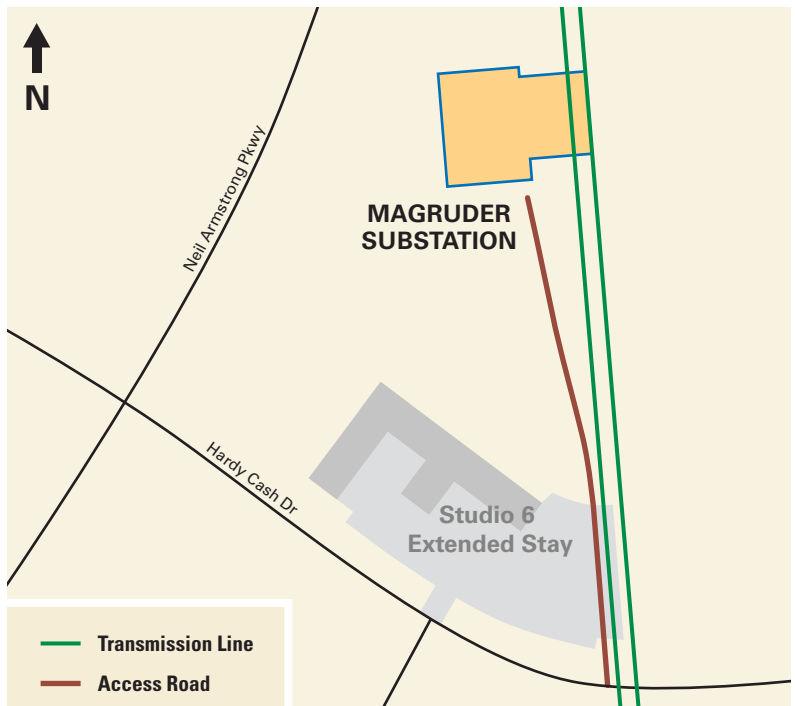
SCAN HERE TO LEARN MORE

This project, which is part of our Grid Transformation Plan, will replace the substation fence. New technologies will also be installed to better deter, detect, delay, and monitor potential threats. Construction inside the substation is set to begin late 2026 and will last approximately six months.

During this time, you may observe construction vehicles entering and exiting the substation through the Studio 6 Extended Stay parking lot off of Hardy Cash Drive. Your electric service should not be impacted by this project.

Thank you for your patience during this work.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.



This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
