Participate and Start Saving!

Commercial and industrial customers can earn incentives for reducing energy use during peak time curtailment events with a load reduction plan tailored to their facility through Dominion Energy's Non-Residential Curtailment Program.

How It Works

Here's an overview of the curtailment process from start to finish:

- Initial meeting and program overview
- On site facility assessment
- Customized load reduction plan
- Plan activation during called events
- Ongoing coaching and support
- Incentives based on verified load reduction
