Subject: Withdrawal of NOPP for the Voluntary Incentive Plan  
e-Permitting Reference Number HQG-85B7-DFSVT  
DESC-Wateree Station, NPDES Permit No. SC0002038,  
Eastover, South Carolina, Richland County

Dear Mr. Amick,

The Dominion Energy South Carolina, Inc. (DESC) Wateree Station is a two-unit, coal-fired electric generating station that is located in Eastover, South Carolina. The station discharges to the Wateree River in accordance with South Carolina's Department of Environmental Services (SCDES) National Pollutant Discharge Elimination System (NPDES) permit SC0002038. Wateree Station is subject to EPA's 2020 Effluent Limit Guidelines (ELGs) under 40 CFR 423: Steam Electric Power Generating Point Source. In the 2020 rule, EPA allowed facilities to comply with either the 2020 Best Available Treatment (BAT) subcategory or the 2020 Voluntary Incentive Plan (VIP) subcategory for flue gas desulfurization (FGD) wastewaters. EPA revised the ELGs under the Steam Electric Reconsideration Rule published on May 9, 2024, with a rule effective date of July 8, 2024. Under the 2024 rule, EPA added additional regulatory pathways but maintained the 2020 BAT and VIP subcategories.

DESC had previously filed a Notice of Planned Participation (NOPP) for the Voluntary Incentive Plan (VIP) that required achievement of the VIP limits by December 31, 2028 (e-Permitting reference Number HQG-85B7-DFSVT). In 2025, the facility recognized the opportunity to potentially comply with the earlier BAT limit based on the successful completion and performance of the Williams BAT plant. The purpose of this document is to provide notice that Wateree Station is withdrawing the VIP NOPP and intends to comply with the 2020 BAT option.

If you have any questions or need additional information, feel free to contact Darrell Shier at (803) 530-9277 or [darrell.shier@dominionenergy.com](mailto:darrell.shier@dominionenergy.com).
