Substation construction in the Carver neighborhood

Carver Substation

At Dominion Energy, we are committed to keeping you informed of upcoming work in your community. You are receiving this postcard because we will soon begin construction at our Carver Substation off West Moore Street in Richmond's Carver neighborhood.

MORE

To protect electric infrastructure and ensure reliable service for our customers, we plan to replace the existing chain link and barbed wire fence at Carver Substation. A taller fence with new security technologies will be installed to better deter, detect, and monitor potential threats.

This work was delayed as we refined the plans for the project. Construction activities are now scheduled from July 2025 through spring 2026. The portion of West Moore Street east of North Harrison Street will be closed to traffic and parking during this time.

Thank you for your patience as we work on this important project to enhance safety and resiliency of the infrastructure that powers your every day.

Protecting the grid against natural and man-made acts is a top priority.
You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
