Substation in the city of Fairfax, Virginia. This work is part of our Grid Transformation Plan, which will modernize electric infrastructure to improve grid reliability and security.

Pending final permit approvals, construction will begin in spring 2024.

There will be increased construction and foot traffic as crews upgrade equipment and install new technology within the existing substation footprint. The project is expected to be completed in spring 2025.

We will update you as activities progress. We will be mindful of our presence in your neighborhood and will work to mitigate construction impacts.

We appreciate your patience as we work to enhance reliability in your community.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
