Gretna Substation Grid Transformation Project

At Dominion Energy, we are committed to keeping you informed of construction activities in your community. You are receiving this postcard because we are preparing to begin construction at Gretna Substation in Pittsylvania County, Virginia. This work is part of our Grid Transformation Plan and will serve to mitigate a voltage island through substation expansion and addition of a transformer.

MORE

Construction will begin in spring 2024 and will last through the end of 2024. In order to accommodate the expanded substation, part of an outbuilding will be removed. There will be increased foot and equipment traffic in the immediate area during construction.

We will update you as activities progress. We will be mindful of our presence in your neighborhood and will work to mitigate construction impacts.

We appreciate your patience as we work to enhance reliability in your community.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
