# Construction update in your community

## Grove Avenue Substation Grid Transformation Project

Dominion Energy is committed to providing the latest information on projects in the communities we serve.

Since late 2024, construction has been underway at Grove Avenue Substation, located off Westview Avenue in Richmond, Virginia. While crews are working diligently, there have been some unexpected delays, which will extend construction until early summer 2026. Your patience is greatly appreciated as work continues on this project.

MORE

This project is part of our Grid Transformation Plan to modernize the electric grid. New equipment will be installed and substation technology will be updated to improve reliability, support outage response, and better integrate distributed energy resources.

Protecting the grid against natural and man-made acts is a top priority.

You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).
