Upcoming Construction in Your Community

Merrifield Substation Grid Transformation Project

At Dominion Energy, upgrading grid infrastructure is vital to better serve you and your community. Dominion Energy is modernizing grid infrastructure at Merrifield Substation in

Fairfax County, Virginia. This project is part of our Grid Transformation Plan to better serve an evolving energy landscape. Construction will be contained within the existing substation fence and is scheduled to begin early fall.

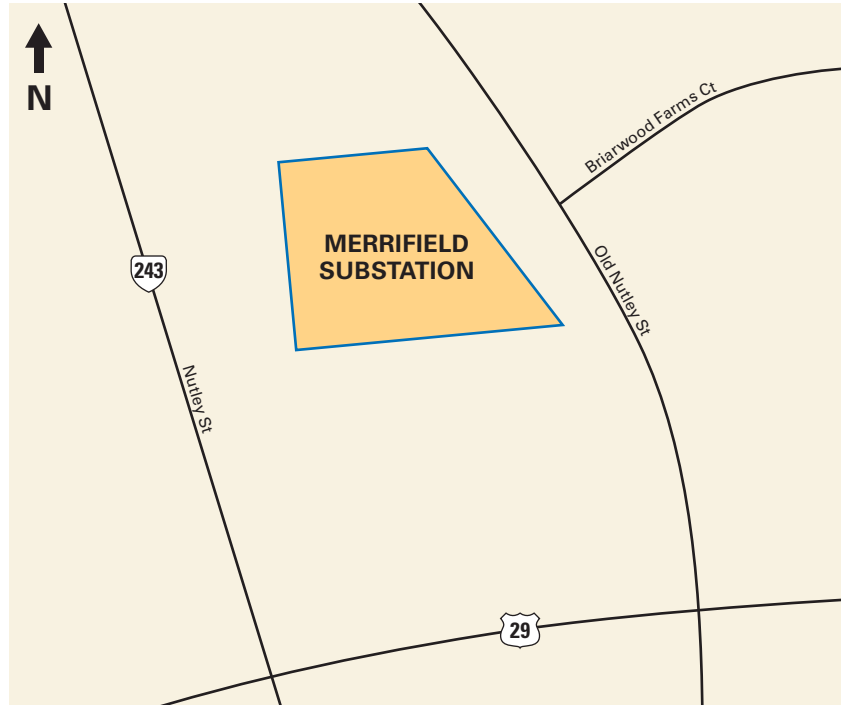

During this time, you may observe additional construction activity and traffic along Nutley Street. However, your electric service should not be impacted by this project.

Thank you for your patience during these activities.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
