We are working in your community

Vienna Substation Grid Transformation Project

At Dominion Energy, we are committed providing information on construction activities in your community. You are receiving this postcard because we are preparing to begin construction at Vienna Substation off Center Street in the town of Vienna in Fairfax County, Virginia. This work is part of our Grid Transformation Plan, which will modernize electric infrastructure and support integration of renewable energy resources onto the electric grid.

MORE

Crews will begin substation construction this spring. We will upgrade equipment, install new technology, and reconfigure access to the substation as part of this project. We anticipate completing construction by early 2026.

We expect minimal traffic impacts and no impacts to your electric service as a result of this work. Thank you for your patience during this important project.

Protecting the grid against natural and man-made acts is a top priority.

You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
