

Williamsburg Substation Grid Transformation Project

CITY OF WILLIAMSBURG, VIRGINIA

Sample image – not project specific

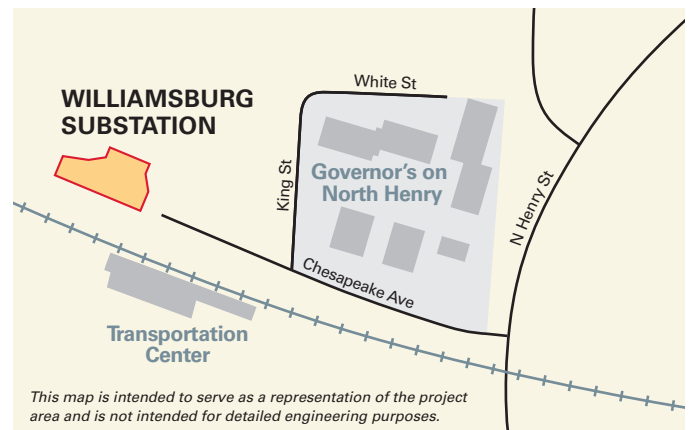

DOMINION ENERGY is modernizing equipment at Williamsburg Substation as part of our Grid Transformation Plan. This project will replace equipment to support safe, reliable, and affordable electric service for your community.

PROJECT DETAILS

- Replace a transformer and supporting equipment within the existing substation footprint
- Replace existing 10'x12' control enclosure with a 12'x20' control enclosure to protect sensitive equipment within the substation
- Remove vegetation on substation fence to maintain site security

PROJECT BENEFITS

- Improved energy reliability to the community
- Faster identification and communication of potential outages
- Real-time power quality monitoring
- Improved planning for population growth

PROJECT SCHEDULE

DATE	ACTIVITY
September 2025	Phase I construction
Early 2026	Phase II construction

Anticipated work hours: 7:00 AM to 7:00 PM, Monday-Thursday only (schedule is subject to change based on weather, material, and crew availability)
