Dominion Energy Reconductors Along the W&OD Trail in Loudoun County

AT DOMINION ENERGY, we are committed to providing the latest information to the communities we serve. You are receiving this postcard to update on you on our reconductor projects along the W&OD Trail in Loudoun County, Virginia.

In March and April, we temporarily closed two sections of the trail while we replaced wires, a process known as reconductoring, near Mile Markers (MM) 24 to 26, and 28 to 31. Work that required trail detours is now complete.

We will continue to work along the trail until early June, and temporary trail impacts could include:

- Trail traffic may be stopped for up to 15 minutes.
- Trail users may be directed to use either the gravel or the paved path.
- Equipment will be staged along the transmission line corridor.

The affected trail sections are:

- Between Smith Switch Road and Loudoun County Parkway — on both sides of MM 25.
- Between Claiborne Parkway and Crosstrail Boulevard — between MM 28 to 31.

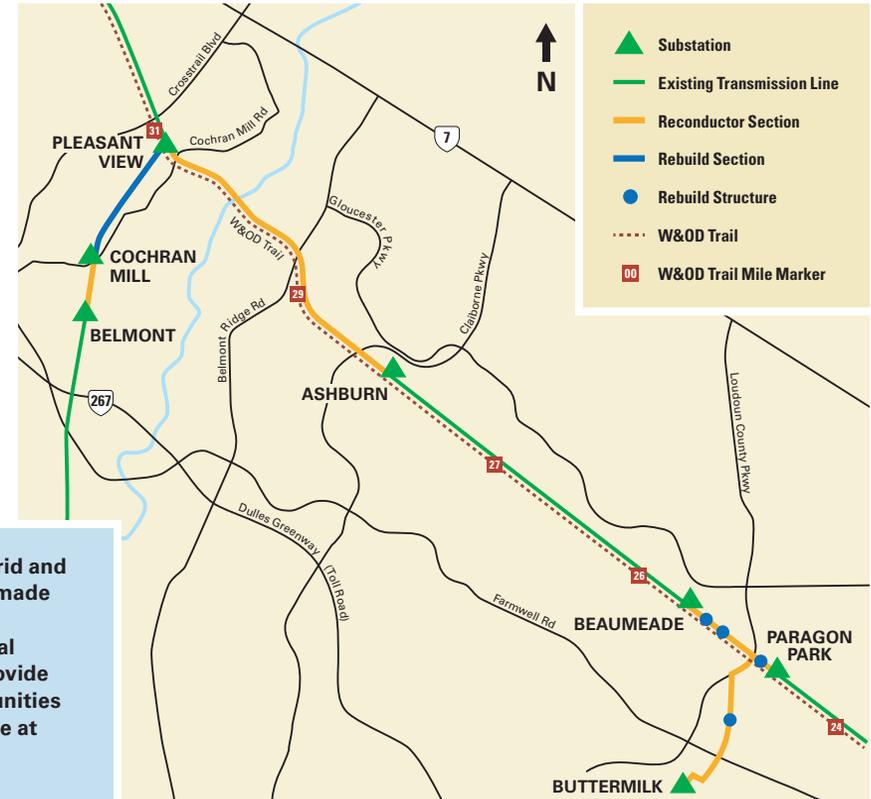

Thank you for your patience while we complete these important projects.

AT DOMINION ENERGY, protecting the grid and making it secure against natural and man-made acts is a top priority. We work alongside government officials to prepare for potential incidents that could affect our ability to provide electricity safely and reliably to the communities we serve. Learn how we're keeping you safe at [powerlines101.dominionenergy.com](https://www.dominionenergy.com/powerlines101).
