Centreport 230 kV Electric Transmission Line and Substation

Dominion Energy is committed to providing the latest information on projects in the communities we serve. As a reminder, the Centreport 230 kV Electric Transmission Line and Substation Project was needed to meet the area's growing energy needs, continue reliable electric service and maintain compliance with federal reliability standards. On June 10, 2025, the Virginia State Corporation (SCC) issued a final order and approved the Centreport project for construction. You are receiving this postcard because construction will begin soon in Stafford County, Virginia.

Pre-construction activities will begin in July 2026. Substation construction is scheduled to last from August 2026 to November 2027. Transmission line construction will last from April 2027 to June 2027.

Nearby neighbors may notice an increased number of crews and vehicles in the project area and a slight rise in noise levels during this time. Your electricity is not expected to be interrupted.

Thank you for your patience as work gets completed for this important project.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
