MORE

We are proposing to rebuild a 230 kilovolt (kV) electric transmission line between our Chesterfield and Lanexa Substations. After five decades of reliable service, the infrastructure along the 28-mile corridor has reached its end of service life and needs to be replaced.

This transmission line corridor crosses through Hanover, Henrico, and Charles City counties and will not require new right of way. While we are currently in the planning stages of the project, we plan to file an application with the Virginia State Corporation Commission (SCC) in fall 2025. In the coming months, you will receive updates on project activities including community meetings where you can learn more about the project and meet with project team members. Details regarding the meeting will be shared once finalized.

Thank you for your understanding as we work to maintain reliable service in your community.

*This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.*

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).

## PROJECT ACTIVITIES

**JULY 2025**

Project announcement

**AUGUST 2025**

Community meetings

**FALL 2025**

Submit application for approval with the Virginia State Corporation Commission (SCC)

**SUMMER 2026**

Anticipated SCC ruling

**DECEMBER 2026**

Construction to start

**WINTER 2028**

Project completion
