Chesterfield-Lanexa 230 kV Electric Transmission Rebuild Project

At Dominion Energy, we are committed to providing the reliable, affordable, and increasingly clean energy that powers your every day. As announced, we are proposing to rebuild a 230 kilovolt (kV) electric transmission line between our Chesterfield and Lanexa substations to replace aging equipment and maintain reliable service for our customers.

MORE

Dominion Energy will host two meetings for you to learn more about this project. You are invited to join us for an in-person community meeting on August 19, and/or a virtual community meeting on August 20. During these meetings, you will have the opportunity to have your questions answered by the project team. A recording of the virtual meeting will be available on the project website.

We are dedicated to working safely and courteously in your community. Thank you for your patience while we complete this important reliability project.
