Culpeper Technology Zone 230 kV Electric Transmission Project

Dominion Energy is committed to providing the reliable and increasingly clean energy that powers our customers every day. To support the Culpeper Technology Zone and to ensure reliability for all our customers in the region, we are continuing our planning and coordination for the substations to support the Culpeper Tech Zone 230 kV Electric Transmission Project.

MORE

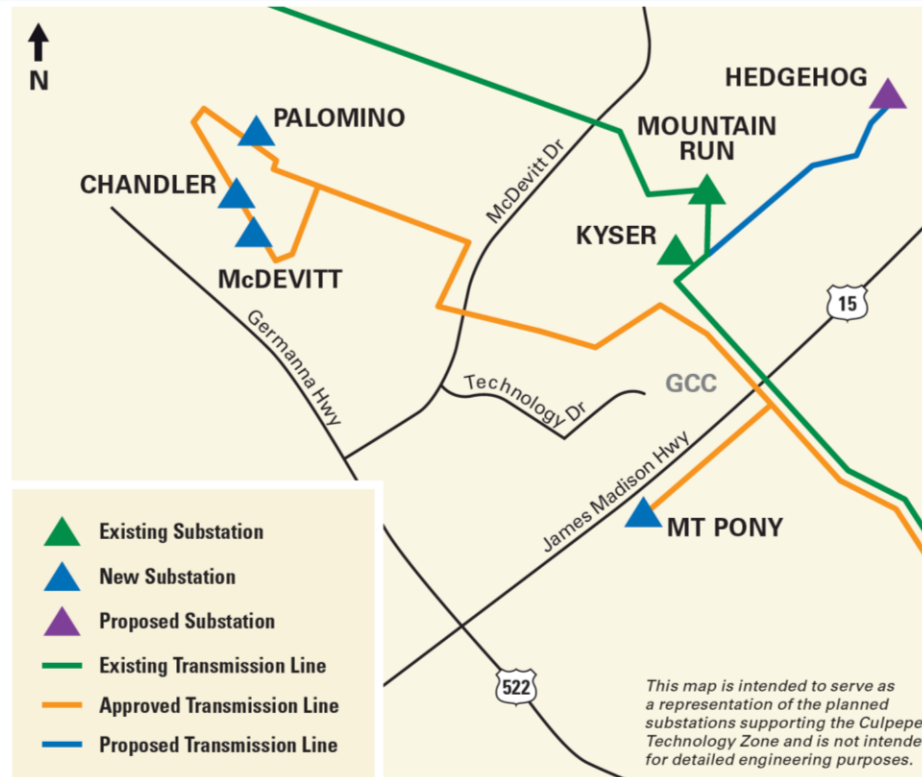

You are receiving this postcard to invite you to learn more about the new substations proposed to support this project: **Chandler**, **Palomino**, **McDevitt**, and **Mt. Pony**. Pending final permits and progress, construction is expected to begin in fall 2026.

Hedgehog Substation is also in the planning phase with a different timeline for permitting and completion.

For more information on this SCC-approved project, please visit the project website at DominionEnergy.com/CTZ.

During the meeting, you will have the opportunity to meet with project team members and have your questions answered. There is no formal presentation. We look forward to your participation.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
