Jenkins Pond Tap – Oak Ridge Partial Rebuild Project Phase 1

Dominion Energy is committed to letting you know about work in your community. You are receiving this postcard to provide you with an update for the Jenkins Pond Tap – Oak Ridge Partial Rebuild Project in Isle of Wight County and Suffolk, Virginia.

Due to unforeseen circumstances, the project timeline has changed. Pre-construction activities have begun and will continue through November 2026. During this phase, you may notice Dominion Energy contractors and crews in and around the right-of-way installing construction entrances and delivering equipment. You may also see forestry crews removing or trimming trees that could pose a risk to the transmission lines.

Phase 1 construction will start at Jenkins Pond Tap in winter 2026 and continue west towards Myrtle and Oak Ridge Substations. Restoration activities will then take place following construction and are expected to conclude in summer 2028.

Thank you for your patience as crews work to provide safe, reliable, and increasingly clean energy to you and your community.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
