Dear Neighbor:

Our mission at Dominion Energy is to deliver reliable, affordable and increasingly clean energy that powers our customers every day. With exponential growth driving the demand for energy across the Commonwealth, Dominion Energy is focused on meeting that need while increasing reliability. To support these efforts, Dominion Energy is planning the Kraken Loop 500 kilovolt (kV) Electric Transmission Project.

The Project includes building a new approximately 70-mile 500 kV transmission line through Louisa, Spotsylvania, Caroline, Stafford, and Fauquier counties. The line will connect the existing North Anna Substation to the proposed Kraken Substation in Caroline County. The Kraken Loop will ultimately tie into the proposed Yeat Substation in Fauquier County. This investment strengthens the grid, supports Virginia's energy security, and ensures reliable power for your community.

Your input matters. Dominion Energy will meet with residents, local governments, and stakeholders to share plans and listen to feedback. You are invited to several opportunities to meet with the project team.

Virtual Community Meeting

Monday, November 10, 12:00 p.m. to 1:00 p.m.

Find virtual meeting details at: dominionenergy.com/kraken

Or join by phone: 1-855-282-6330 Access code: 2335 202 3548

In-Person Community Meetings

Fauquier County, Monday, Nov. 10

5:30 p.m. to 7:30 p.m.

Zoar Baptist Church

11036 Elk Run Road

Catlett, VA 20119

Stafford County, Wednesday, Nov. 12

5:30 p.m. to 7:30 p.m.

Rowser Building

1739 Richmond Highway

Stafford, VA 22554

Louisa County, Tuesday, Nov. 18

5:30 p.m. to 7:30 p.m.

Callie Opie's Orchard Event Barn

4533 Zachary Taylor Highway

Mineral, VA 23117

Caroline County, Thursday, Nov. 20

6:00 p.m. to 8:00 p.m.

Madison Elementary School

9075 Chance Place

Ruther Glen, VA 22546

Spanish translators will be available during the virtual and in-person community meetings.

The Project is in the early stages of development. You may see much of this project routed along existing Dominion Energy right-of-way corridors. As part of determining potential routes, Dominion Energy will conduct surveys to identify environmental, cultural, and historic resources, as well as any threatened and endangered species. Your input will help refine potential routes before they are submitted to the Virginia State Corporation Commission (SCC) for review and approval.

You can count on regular updates and clear answers to your questions.

Contact our team at 888-291-0190 or powerline@dominionenergy.com, or visit dominionenergy.com/kraken for more information.

Respectfully yours,

Rob Richardson
Transmission Communications Consultant
