Actions Speak Louder

YOU'RE INVITED TO A VIRTUAL COMMUNITY MEETING DETAILS ENCLOSED

IMPORTANT

Local Power Line Project Information

Line 514 Goose Creek – Doubs 500 kV Electric Transmission Line Rebuild Project

AT DOMINION ENERGY, we are committed to staying connected with our customers and providing the latest information on work being done in the communities we serve. You are receiving this postcard because we are currently planning to rebuild a 3-mile section of an electric transmission line from Goose Creek Substation to the Potomac River in Loudoun County, Virginia.

After nearly five decades of service, the structures, and related components are at the end of their service life and need to be replaced to maintain reliability for our customers. We plan to replace existing lattice structures and overhead conductor. Construction is scheduled to begin in September 2023 with an anticipated completion date of June 2024.

To learn more about this project, we invite you to participate in a virtual community meeting on Oct. 14, 2021 to learn more about the project, the construction process, and meet our team.

We are dedicated to working safely and courteously in your community and will continue to keep you updated on our progress.

CONTACT US

Visit our website at DominionEnergy.com/goosecreek for project updates. Or contact us by calling 888-291-0190 or sending an email to powerline@dominionenergy.com. At Dominion Energy, we know many of our customers are facing challenges due to the COVID-19 pandemic. We're here to help. In accordance with the law recently passed in Virginia, we're offering flexible payment arrangements up to 24 months. To set up a payment plan, or view additional assistance options, please visit DominionEnergy.com or call 1-866-366-4357.

VIRTUAL COMMUNITY MEETING

Live Via Webex Events Thursday, Oct. 14, 2021 • 5–6 p.m. Join the meeting by visiting our website, DominionEnergy.com/goosecreek.

A recording will be available on the project website after the meeting.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
