Upcoming Surveying Activities

McLean Area 230 kV Transmission Line Right of Way Survey

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. You are receiving this postcard to let you know surveying activities will occur in an existing 230 kilovolt (kV) electric transmission corridor in the McLean area of Fairfax County.

MORE

In late July 2026, you may notice surveyors in the right of way on foot or in light duty vehicles. Existing access routes will be used, which may be on or near your property. Surveyors may leave yard stakes or small flags in the right of way. Please do not remove these important markers.

Dominion Energy drones will be used to check vegetation and infrastructure from above the right of way. An FAA-licensed drone pilot will operate from the ground and will always maintain sight of the aircraft. The surveying will only take place in the daylight.

Thank you for your patience and understanding as we prioritize this critical infrastructure in your community.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

Upcoming Surveying Work

WHAT

Crews will perform ground and air surveys

WHERE

Great Falls Street to near the Potomac School in McLean
