

MOTION:

**July 14, 2026
Regular Meeting
Res. No. 26-**

SECOND:

RE: The Board of County Supervisors Does Not Support and Does Not Intend to Grant Access to County Property or Easements for Proposed Routes 5 and 12 – the Blue and Light Blue Lines for the Nokesville to Bristow 230 Kilovolt (kV) Electric Transmission Line Project – Brentsville Magisterial District

ACTION:

WHEREAS, Dominion Energy is proposing a new 230 kilovolt (kV) transmission line that will connect the existing Nokesville Substation to the future Bristow Switching Station in the Brentsville Magisterial District; the new transmission line will be approximately 6.5 miles long; and multiple potential overhead route options are currently proposed and being evaluated by Dominion Energy; and

WHEREAS, numerous members of the community, including those who will be impacted by the proposed transmission line routes, have shared their concerns with the Board of County Supervisors (Board); and

WHEREAS, the Board understands Dominion Energy's position with regard to the need for the project, and the Board understands the State Corporation Commission is required to review the proposed project for necessity and feasibility in order to meet the energy and reliability service needs of its customers; and

WHEREAS, the Board is concerned with all of the currently proposed routes, and has concerns for its constituents who will be impacted by each of the proposed routes; and

WHEREAS, the Board is most concerned with the proposed Routes 5 and 12 – the Blue and Light Blue lines because they have the most impacts to County property and the community, and do not best serve the total public interest; and

WHEREAS, the Board appreciates consideration of the Board and community concerns regarding proposed Routes 5 and 12 – the Blue and Light Blue lines;

NOW, THEREFORE, BE IT RESOLVED that the Prince William Board of County Supervisors, based on the information available at this time, does not support and does not intend to grant Dominion Energy access to County property or easements for proposed Routes 5 and 12 – the Blue and Light Blue lines for the Nokesville to Bristow 230 kilovolt (kV) Electric Transmission Line project;
