

# Investing in Your Community

Powering Your Every Day.™

## Community Meetings in Your Area

Dominion Energy is committed to providing safe, reliable, affordable, and increasingly clean electricity. As we continue to refine project plans to serve your community, we invite you to save the dates for two upcoming community meetings.

The Aspen to Golden 500/230 kV Electric Transmission Line Project is necessary to maintain reliability for the area. This project includes two new proposed substations, Aspen and Golden, as well as transmission lines that will connect the substations. This project will extend our high voltage transmission lines into northeast Loudoun County.

You can view our proposed routes for the Aspen to Golden Project at [DominionEnergy.com/NOVA](https://www.dominionenergy.com/NOVA). You can also explore the routes and provide location-based comments by clicking on the GeoVoice interactive mapping tool.

**Dominion Energy takes your input seriously and welcomes your participation in the continued development of this project.**

You are invited to attend one or both open house events to learn more about the Aspen to Golden 500/230 kV Electric Transmission Line Project.

**January 9, 12 PM to 1 PM – Virtual | January 11, 5:30 PM to 8 PM – In-person**

Log in and location details will be shared soon.

**Spanish and Vietnamese translation will be available for the virtual and in-person meetings.**

### Connect With Us

Visit our website at [DominionEnergy.com/NOVA](https://www.dominionenergy.com/NOVA) for project updates. Contact us by sending an email to [powerline@dominionenergy.com](mailto:powerline@dominionenergy.com) or calling 888-291-0190.

Use your phone's camera or QR reader app to visit the project page directly.
