**Perkins Creek Solar Interconnection Project**

Dear <<Salutation>>,

Dominion Energy is dedicated to maintaining safe, reliable, and affordable electric service in the communities we serve. As a valued stakeholder with a unique perspective, you can help us meet these objectives as we plan necessary electric infrastructure projects. We are reaching out to you as we have an upcoming project in Buckingham, Cumberland, and Prince Edward counties and you may have an interest in this area.

We are planning to build a new substation to connect RWE Renewable's Blue Rock Solar in Buckingham County to the electric grid and perform associated electric transmission line upgrades. There are three main components of this project:

- build a new substation, called Perkins Creek, within RWE Renewable's Blue Rock Solar facility in Buckingham County
- install a temporary transmission line outside Perkins Creek Substation, which will require approximately 10 feet of new right of way for approximately 0.3 miles
- install new structures and new communication fiber line within the existing right of way between future Perkins Creek Substation in Buckingham County and Willis Mountain Substation in Prince Edward County (approximately 4.6 miles)

This project does not require review by the Virginia State Corporation Commission. We are preparing for transmission line construction to begin in late 2025 and substation construction to begin in early 2026. Enclosed is a project overview map for your reference. Providing your input now allows us to consider any concerns you may have as we work to meet the project's needs. Please feel free to notify other relevant organizations that may have an interest in the project area. For reference, other recipients of this letter include county and state historic, cultural, and scenic organizations, as well as Tribal Nations.

Please visit the project webpage at [DominionEnergy.com/PerkinsCreek](https://DominionEnergy.com/PerkinsCreek) for project updates and information.

If you have questions or would like to set up a meeting to discuss the project, contact me by calling 804-690-8869 or sending an email to [jenna.e.brown@dominionenergy.com](mailto:jenna.e.brown@dominionenergy.com).

Sincerely,

A handwritten signature in black ink that reads "Jenna Brown".
