## Shawboro – Elizabeth City 230 kV Electric Transmission Line Rebuild

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. To maintain reliable service for our customers, we are replacing an aging 230 kilovolt (kV) electric transmission line between Shawboro and Elizabeth City substations. This project spans

approximately 10.3 miles across Camden, Currituck, and Pasquotank counties.

MORE

Preconstruction activities, such as preparing access to the right of way, will begin in mid-July 2024. After preconstruction, construction will start at our Shawboro Substation. In spring 2025, work will progress southwest to our Elizabeth City Substation. Right of way restoration will occur through summer and fall 2025.

We recently held a virtual community meeting where the project team answered community members' questions. You can see a recording of the meeting by clicking on the 'Meetings' icon found on the project website – [DominionEnergy.com/ElizabethCity](https://DominionEnergy.com/ElizabethCity).

We are dedicated to working safely and courteously in your community. Thank you for your patience while we complete this important reliability project.
