Upcoming tree clearing work in your community

Technology Boulevard 230 kV Electric Transmission Project

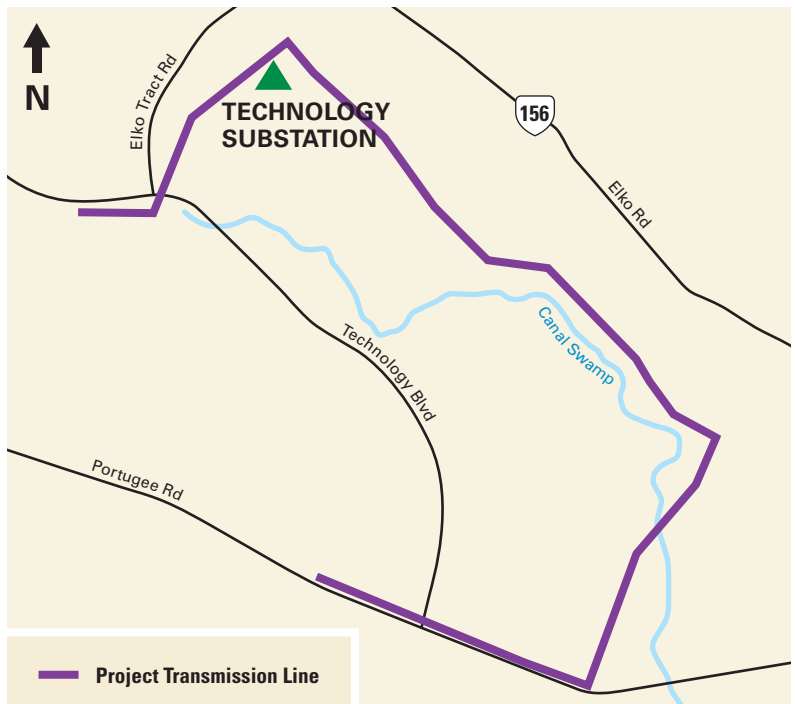

Dominion Energy is committed to keeping you informed about projects in your community. Beginning in mid-November 2026, tree clearing will occur along the new transmission line right of way for the Technology Boulevard 230 kilovolt (kV) Electric Transmission project. As a reminder, this project includes a new double-circuit 230kV electric transmission line that will connect two existing lines within the White Oak Technology Park to support recent growth.

SCAN HERE TO LEARN MORE

You may notice forestry crews and vehicles along the project route working to clear trees. A rise in noise levels may be heard during this time.

The removal of the trees is necessary to prepare for upcoming transmission line construction. Construction is expected to last from December 2026 to September 2027. Thank you for your patience and understanding as this important work is completed.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

UPCOMING WORK

Mid-November 2026

- Tree removal along the new transmission line right of way
- Increased noise levels may occur
