# Construction is winding down in your community

## Yadkin-Fentress 500 kV Electric Transmission Line Project

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. 13.5 miles of an existing 500 kilovolt (kV) transmission line is currently being replaced with two 500 kV lines between our Yadkin and Fentress substations in the City of Chesapeake, Virginia. This project will maintain reliability of the transmission system and integrate new electric generation with the grid.

In your area, Phase 1 construction activities are winding down. The 500 kV lines from Yadkin Substation to near Weiss Lane are now completed. In the coming months, you may notice crews restoring the right of way. This includes removing temporary access materials, restoring property fences, and making any necessary repairs to yards or neighborhood roads. The right of way will be

rehabilitated using seasonally appropriate perennial grass seed mixtures and straw. The straw protects the seed and stabilizes the soils.

As construction access mats and sediment control measures are removed, there may be some imperfections in residential yards until vegetation is mature. As the soil stabilizes and the perennial grass gets established, it may take up to a year for the high spots and depressions to level out. You may notice crews periodically inspecting the soil stabilization and grass growth.

Thank you for your patience as we complete work in your community.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

## REMAINING WORK IN PHASE 1

(Yadkin Substation – Weiss Lane)

September – November 2025

Rehabilitate the Right of Way  
Repair and restore Pioneer Lane

Fall 2025 – spring 2026

Ongoing inspections of Right of Way  
during restoration

*Schedule is subject to change pending final approvals, permits, weather, and progress.*
