We are working in your community

Yadkin-Fentress 500 kV Electric Transmission Line Project

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. You may notice upcoming transmission line activities that will be completed by helicopter.

MORE

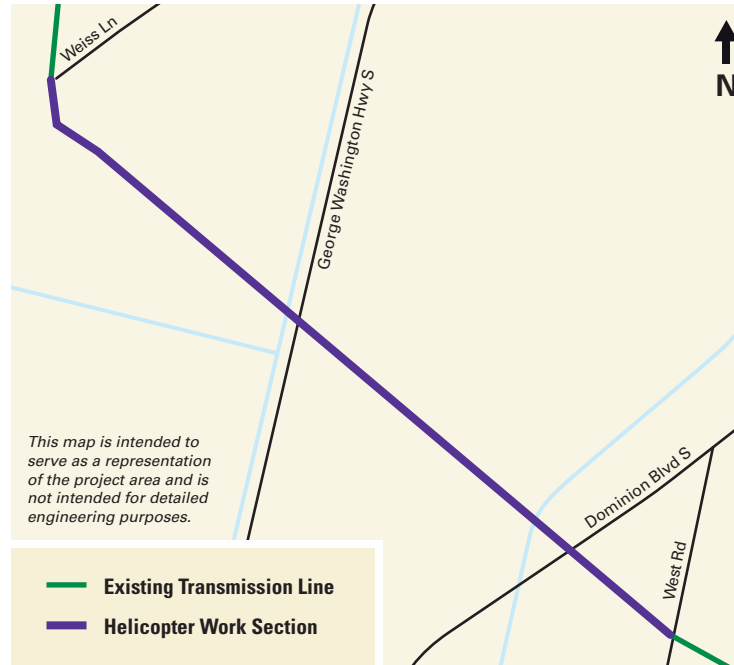

Between September and December 2025, we will use a non-Dominion Energy helicopter to help install new transmission lines and communication fiber on the transmission poles between Weiss Lane and West Road in the City of Chesapeake, Virginia.

The work will occur Monday to Saturday, between 8:30 a.m. and 5:00 p.m. Flights are weather-dependent and subject to change. To ensure everyone's safety,

temporary traffic interruptions will occur (less than five minutes at a time) when the helicopter pulls lines over the road. Traffic signs will be posted and flaggers or police will be present to temporarily stop traffic. Spotters will also be present on adjacent sidewalks and shared use paths.

For neighbors who reside near the work zone — we respectfully remind you to remain outside the right of way during overhead work. Safety is our highest priority, and this is an active construction zone. Safety perimeters serve as reminders of the work zone boundaries and help keep you safe while we work overhead.

We appreciate your patience while we complete this work as quickly and efficiently as possible. We expect to finish construction near you in early 2026, and we will restore the right of way with grass, low-growth vegetation, or wetland species. Please do not hesitate to connect with us if you have questions.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

UPCOMING WORK

WHAT

Line removal and installation
by helicopter

WHEN

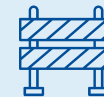

September to December 2025
Monday – Saturday
8:30 a.m. – 5:00 p.m.

WHERE

Between Weiss Lane and West Road
in the City of Chesapeake, Virginia
