

Schedule CSBBI
Non-Residential
Small Business Improvement

I. PURPOSE

The Non-Residential Small Business Improvement Program (“CSBBI Program”) is a voluntary program that provides privately-owned small business customers with an energy use assessment and tune-up or re-commissioning of electric heating and cooling systems.

The CSBBI Program is designed to reduce participants’ total energy bills as well as the amount of energy required throughout the year on the Company’s system.

II. AVAILABILITY

The CSBBI Program will be available to qualifying non-residential customers in the Company’s North Carolina service territory whose demand does not exceed 200 kW more than three (3) times in the previous twelve (12) months.

Customers who elect to opt out of the DSM/EE Riders, as provided for in N.C.G.S. § 62-133.9(f), cannot participate in the CSBBI Program.

The CSBBI Program measures are listed below:

- Refrigeration Measures
- Lighting Dimmers and Controls
- Window Film
- Direct Install Lighting
- Variable Frequency Drives
- Efficient Heat Pumps and Air Conditioning Units
- Door Gaskets (Cooler and Freezer)
- Coil Cleaning (Cooler and Freezer)
- Anti-Sweat Door Film
- LED Lamps Upgrades
- Prescriptive Re-commissioning
- Smart Thermostat Upgrades (AC Cooling only and/or AC Cooling and Heat Pump Heating)

Participants can learn more about the CSBBI Program at the following web address:

<https://www.dominionenergy.com/north-carolina/save-energy>.

III. INCENTIVE PAYMENTS

The CSBBI Program also provides an average one-time financial incentive valued at \$4,040 per new participant for the installation of specific energy efficiency measures based on the on-site energy assessment.

Rebate applications must be submitted within 45 days of the service date. Rebate applications are typically processed within approximately 90 days after all required information has been received and verified; however, actual processing times may vary. The Company reserves the right to withhold any rebate payment until the customer has satisfactorily completed the application process. The Company and/or its designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements. Such reviews will be made at a time convenient to the applicant.
