MINIMUM CHARGE

The monthly minimum charge is the demand as determined above. It shall also include the basic facilities charge as stated above, and the Distributed Energy Resource Program charge, as stated below. The Company may allow a buildup period not to exceed six months for new and expanding accounts during which time the contract demand and/or the minimum demand specified in the rate schedule may be waived. The Company shall not commit itself to a buildup period exceeding six months without prior approval of the Commission for the specific account involved.

BILLING DEMAND

The billing demands will be rounded to the nearest whole KVA. The maximum integrated fifteen minute demand for any period may be recorded on a rolling time interval.

For the summer months, the On-Peak billing demand shall be the maximum integrated fifteen minute demand measured during the On-Peak hours of the current month.

For the winter months, the On-Peak billing demand will be the greater of: (1) the maximum integrated fifteen minute demand measured during the On-Peak hours of the current month, or (2) eighty percent (80%) of the maximum integrated demand occurring during the On-Peak hours of the preceding summer months.

The Off-Peak billing demand shall be the greatest of the following positive differences: (1) the maximum integrated fifteen minute demand measured during the Off-Peak hours minus the On-Peak billing demand, (2) the contract demand minus the On-Peak billing demand or (3) 50 KVA minus the On-Peak billing demand.
