CONSUMPTION TAX

In accordance with the Code of Virginia § 58.1-2900, a Consumption Tax, as shown below, will be applied to all kilowatt-hours ("kWh") consumed under the following Virginia Electric and Power Company (the Company) Filed Rate Schedules:

1. Rate Schedules 1, 1G, 1P, 1S, 1T, 1W, DP-R, 1EV, EV, 5, 5C, 5P, 6, GS-1, DP-1, GS-2, GS-2T, DP-2, GS-3, GS-3 EV, GS-4, 6TS, 7, 8, 10, SP, 24, 25, 27, 28, 29, MBR, SCR, as well as all kWh consumed under any special rates, contracts or incentives approved by the State Corporation Commission of Virginia ("Commission") pursuant to the Code of Virginia § 56-235.2. In accordance with the Code of Virginia § 58.1-2902, the Company will collect and remit the Consumption Tax.

2. In accordance with the Code of Virginia § 58.1-2902, the Company will collect and remit the Consumption Tax. However, if the Competitive Service Provider bills the Customer for both the Competitive Service Provider's Electricity Supply Service Charges and the Company's Electric Delivery Service Charges, the Competitive Service Provider will collect and remit the Consumption Tax.

3. In accordance with Item 3-5.24 of the Virginia State Budget Bill (2026 Special Session I), beginning September 2026, the Company will collect and remit to the Commission a monthly consumption tax of $0.011 per kWh for all electricity consumed by each Data Center Operator ("Data Center Electricity Consumption Tax" or "DCECT"). The DCECT is in addition to Consumption Tax identified in the below table and effective for the period July 1, 2026, through and including June 30, 2028.

   For reference, a "Data Center" means a facility whose primary services are to centralize the storage, management, and processing of digital data and is used to house (i) computer and network systesm, including associated components such as serves, network equipment and appliances, telecommunications, and data storage systems; (ii) systems for monitoring and managing infrastructure performance; (iii) equipment used for the transformation, transmission, distribution, or management of at least one megawatt of capacity of electrical power and cooling, including substations, uninterruptible power supply systems, all electrical plant equipment, and associated air handlers; (iv) Internet-related equipment and services; (v) data communications connections; (vi) environmental controls; (vii) fire protection systems; and (viii) security systems and services.

   Data Center does not include a facility whose primary function is to facilitate the provision of internet access service, a communication service as defined in § 58-1.647, or any combination thereof.

   The DCECT shall not apply to Data Centers that are owned by, or are divisions or agencies of federal, state and local governments. The DCECT shall not apply to temporary power consumed during construction or any time prior to a Data Center becoming operational.

   A "Data Center Operator" means any person who (i) owns, operates, or occupies a data center in the Commonwealth,or (ii) owns or operates a data center in the Commonwealth that utilizes self supplied electricity generation. Where multiple persons qualify as data center operators with respect to a single data center, the person responsible for payment of the electric utility account for the applicable service point shall be liable for the tax imposed under this Item with respect to electricity delivered through that account, and the person responsible for the self-supplied generation shall be liable for the tax imposed with respect to the self-supplied electricity.
