

Dominion Energy[®]
Economic Development

Powering Your
Every Day.SM

At Dominion Energy, we provide reliable, affordable, and increasingly clean energy that powers our customers every day. We serve four million utility customers in one of the most attractive regions of the country, the Southeast United States.

WHY VIRGINIA?

Robust economic growth, strong demographic trends and advanced infrastructure in an environment that promotes reliability, affordability and the transition to cleaner energy make Virginia a great place for business.

Dominion Energy Virginia's transmission system is 99.999% reliable.

Dominion Energy customers pay among the lowest rates in the nation compared to competitor states and our industrial rates have been below the national average for 18 years.

One third of the energy on our grid is carbon-free, with more clean energy coming.

We are constructing the largest offshore wind farm in the United States.

Our 3,000MW pumped hydro power station in Bath County, VA is part of the largest energy storage portfolio in the nation.

Our non-residential energy efficiency programs are designed to meet the energy needs of both small and large businesses.

Awarded "Top Utility for Economic Development" by Business Facilities Magazine for six consecutive years and Site Selection Magazine four times since 2019.

Dedicated team of economic development experts with more than 60 years of combined experience.

Special Economic Development rates and terms can eliminate all upfront customer costs.
