NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission (Commission) has scheduled a public hearing in conjunction with the Commission's review and evaluation of Virginia Electric and Power Company d/b/a Dominion Energy's (Dominion) proposed 2023 Integrated Resource Plan (IRP) and 2023 Renewable Energy and Energy Efficiency Portfolio Standard (REPS) Compliance Plan.

The purpose of the review and evaluation is to ensure that Dominion is developing reliable projections of the long-range demands for electricity in its service area and is developing a combination of reliable resource options for meeting the anticipated demands in a cost-effective manner. An IRP is intended to identify those electric resource options which can be obtained at least cost to ratepayers in North Carolina consistent with adequate, reliable electric service. An IRP also considers conservation, efficiency, load management, and other demand-side program alternatives in the selection of resource options. Commission Rule R8-60 requires that Dominion furnish the Commission with a biennial report that contains the specific information set out in that Commission Rule.

On May 1, 2023, Dominion filed its proposed 2023 IRP, which has been subsequently corrected. Dominion filed the most up-to-date version of its 2023 IRP on September 15, 2023. Also, on May 1, 2023, Dominion filed its 2023 REPS Compliance Plan.
