

Augusta

PROJECT OVERVIEW

ABOUT THE PROJECT

At Dominion Energy, we are committed to providing safe, reliable natural gas service at the lowest possible cost. Expanding access to natural gas will help meet growing demand and provide lasting economic benefits for the region. Affordable electricity and access to natural gas are two of the most critical ingredients for economic development. The Augusta Project will help ensure both.

Dominion Energy Ohio is proposing improvements to the Augusta Station facility located in East Township, Carroll County, Ohio. The proposed improvements include the installation of two (2) gas fired compressor units and associated equipment. Upgrades to the facility are required to add capacity to the existing natural gas pipeline system in order to meet growing energy needs for Dominion Energy Ohio customers.

The Augusta Project's added capacity would supply enough natural gas to serve an additional 90,500 households on a single winter day.

SAFETY

Dominion Energy is committed to safe operations, safe facilities, and safety-minded employees. From construction through operations, safety is the top priority. Dominion Energy maintains operating policies and procedures that adhere to United States Department of Transportation (USDOT) safety requirements that provide specific directions in inspection, testing, operation, preventive maintenance, repair, and vigilant patrols of facilities and more.

ENVIRONMENTAL STEWARDSHIP

Responsible stewardship of natural resources is one of the essentials of our daily business. Dominion Energy will evaluate potential environmental impacts resulting from the Augusta Project and will work to minimize these impacts to the greatest extent possible.

PROPOSED PROJECT FACILITIES

AUGUSTA STATION

East Township, Carroll County, OH

Install two gas fired compressor units and associated equipment

PROJECT TIMELINE

MILESTONE	TARGET
Stakeholder Outreach	Ongoing
File Applications	Fall 2019
Receive All Permits	Spring 2020
Begin Construction	Spring 2020
Project In-Service	Fall 2020
