**RE: Dominion North Anna Power Station; Minor Surface Water Withdrawal
VWP Permit 10-1496: 2024 Water Withdrawal Monitoring Report**

Dear Ms. Moore:

In accordance with VWP Permit 10-1496 and the April 30, 2014 email from DEQ (attached), Dominion is submitting the 2024 Water Withdrawal Monitoring Report for the construction water withdrawal from Lake Anna. The attached withdrawal log provides the information required in permit special condition Part I.D.12. No water was withdrawn from Lake Anna during 2024. This report will be posted online on the North Anna Power Station website at the address indicated on the attached withdrawal log.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

If you have any questions or need additional information, please contact Oula Shehab-Dandan at oula.k.shehab-dandan@dominionenergy.com or at (804) 310-4881.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Ericson".

Subject: Response to inquiry regarding monthly water withdrawal reporting for VWP Permit No. 10-1496: Part II_Construction Wtr Withdrawal

Good morning Mr. Roller,

Thank you for your inquiry regarding clarification of your water withdrawal reporting requirements. Based on our telephone conversation April 28, 2014, you indicated that the first phase of construction activities has concluded and the next phase would not commence for an extended period of time. During the time period when construction would not be occurring, the water withdrawal associated with construction would also not be occurring.

Permit Condition Part I D.11 indicates that "on each day that pumping occurs, the permittee must monitor and record the following, for each pump: a) date and time; b) identity of the pump operator and data recorder, c) total amount of water withdrawn each day; and d) elevation of Lake Anna." Permit Condition Part I D.12 requires that a water withdrawal monitoring report be submitted to DEQ 20 days following a monthly monitoring period. Based on these conditions, if pumping has not occurred during the month, a water withdrawal monitoring report would not be generated or required. However, an annual report would be required to be submitted by January 31 of each year with all the information outlined in Permit Condition Part I D.12, including the largest single day withdrawal volume (million gallons) that occurred in the year and the month in which it occurred. DEQ would also request that the permittee notify us 10 days prior to resuming the water withdrawal.

Please let me know if you have any questions.

Regards,
Amy Dooley

RE: VWP Individual Permit Number 10-1496
Dominion-North Anna Power Station Louisa County, Virginia
Notice of permit transfer

Dear Ms. Leopold:

The Virginia Department of Environmental Quality (DEQ) has recently transferred the management of the above-referenced permit to the DEQ's Office of Water Supply. Therefore, all future correspondence relating to this permit, any required reporting activities, and any compliance issues or concerns should now be submitted to the attention of the Water Withdrawal Permit Manager at the DEQ office stated below:

Virginia Dept. of Environmental Quality
Office of Water Supply
PO Box 1105
Richmond VA 23218

If you have any questions regarding this letter or permit, please contact me at 804-698-4051 or by email at Shana.Moore@DEQ.Virginia.gov.

Respectfully,
