

Downing of a Flag

A New Documentary Supported by Dominion Energy

SC State Rep. Gilda Cobb-Hunter, District 66

This, in my view, is the real story of how the flag was taken down.
That moment was critical in South Carolina history.
It is important that that story be told.

This project, "Downing of a Flag," aligns perfectly with
Dominion Energy's commitment to diversity and inclusion,
issues surrounding social justice and equity.

Dominion supporting this speaks volumes about their commitment
to South Carolina. They have really put their money where their mouth is.

We were very pleased that we were allowed to be a part of this project as
part of our ongoing philanthropic support of organizations and causes
that are on the front line doing the work related to issues such as this.

I look forward to Dominion continuing in this state as one of our major
corporate sponsors trying to make a difference in
communities across South Carolina.
