00:00:02.335 --> 00:00:04.571

Hi. I'm

Jonathan McNamara, and I'm a participant

00:00:04.571 --> 00:00:07.574

in the Dominion Energy
residential charging program.

00:00:07.741 --> 00:00:10.610

When we made a decision
to, purchase an electric vehicle,

00:00:10.610 --> 00:00:12.779

we did a lot of research
looking at different options.

00:00:12.779 --> 00:00:15.782

And then when we saw that Dominion Energy
had this program,

00:00:15.782 --> 00:00:18.918

it was a no brainer for our family
because, first of all, the expertise

00:00:18.918 --> 00:00:22.055

and the brand, notoriety of Dominion,
was a selling point

00:00:22.055 --> 00:00:24.891

compared to other options,
but also having a one stop shop,

00:00:24.891 --> 00:00:26.059

to get our questions answered,

00:00:26.059 --> 00:00:28.962

but to also know that they would be
with us every step of the way.

00:00:28.962 --> 00:00:31.364

Made it stand out in the options
that were available.

00:00:31.364 --> 00:00:33.767

And it's been a great process ever since.

00:00:33.767 --> 00:00:35.935

Once we were able to find
the Dominion Energy website,

00:00:35.935 --> 00:00:38.938

we were able to submit an interest form
to get pre-qualified.

00:00:39.205 --> 00:00:40.707

And then Dominion took care of the rest,

00:00:40.707 --> 00:00:43.009

providing us

with what options were available.

00:00:43.009 --> 00:00:45.779

And then, helping us

find the local installer.

00:00:45.779 --> 00:00:48.948

Net helped us get from the application

process to installation very quickly.

00:00:49.315 --> 00:00:51.651

And the process was really easy

and made it a true pleasure.

00:00:51.651 --> 00:00:54.154

As we got home

installation here at our house.

00:00:54.154 --> 00:00:56.890

So my favorite things about this program

was the ability to pay

00:00:56.890 --> 00:00:59.893

for charging as a part

of my Dominion Energy bill monthly.

00:00:59.893 --> 00:01:01.528

It was convenient and easy.

00:01:01.528 --> 00:01:04.664

Also, knowing that I had warranty
from Dominion Energy

00:01:04.764 --> 00:01:08.568

made the process incredibly easy
and just made us feel at ease.

00:01:09.069 --> 00:01:12.338

Since we have had the charging system
in the vehicle and our driver, we've had

00:01:12.338 --> 00:01:14.040

a ton of questions
from friends and family.

00:01:14.040 --> 00:01:16.242

And I know
that I would absolutely recommend

00:01:16.242 --> 00:01:19.379

this program through Dominion Energy,
they make the process simple.

00:01:19.446 --> 00:01:21.948

They help to address

any concerns that you may have.

00:01:21.948 --> 00:01:24.951

And that helps to reduce the barriers
to EV ownership.

00:01:25.218 --> 00:01:28.021

Which is really what this is all about
is getting more people in the community

00:01:28.021 --> 00:01:30.123

to have a truck
like this in their driveway,

00:01:30.123 --> 00:01:31.891

but also the convenience
of charging at home.

00:01:31.891 --> 00:01:33.927

And that's what Dominion Energy
does. And a one stop shop.
