Beaumeade-Pleasant View Electric Transmission Line Project – W&OD Detour

Dear Neighbor:

At Dominion Energy, we are committed to staying connected with our customers and providing the latest information on work being done in the communities we serve. You are receiving this letter because we are currently planning to replace conductor on a 230 kV electric transmission line located near your property in Loudoun County, Virginia.

This work is necessary to maintain electric reliability for our customers and will temporarily impact users of the Washington and Old Dominion (W&OD) Trail. For your convenience, we have included the detour schedule below and enclosed a project overview map.

W&OD Detour Schedule:

A section of the W&OD Trail will be closed Monday, Oct. 18, 2021 through Friday, Oct. 22, 2021, with a contingency schedule of Monday, Oct. 25, 2021 through Friday, Oct. 29, 2021.

- The trail will be closed between Loudoun County Parkway to just east of Claiborne Parkway (approx. 3.6 miles). See orange line on enclosed map.
- An approximate 5-mile detour, mostly along Gloucester Parkway, will be provided for pedestrians and cyclists. See purple line on enclosed map.

To ensure the safety of pedestrians and cyclists, detour signs will be posted along the detour route.

In addition, in the wake of ongoing public health concerns from the spread of the coronavirus, we want to ensure you that we are mindful of our activities and maintaining property owner interactions with the appropriate social distancing.

Thank you for your patience as we work to complete this important project. To learn more about our construction process, please visit powerlines101.dominionenergy.com. You may also contact us by sending an email to powerline@dominionenergy.com or calling 888-291-0190.

Sincerely,

The Electric Transmission Project Team

Beaumeade – Pleasant View Electric Transmission Line Project
