Project No. 130-0193

June 2021 Amendment

1.0 POST-CLOSURE CARE REQUIREMENT

The Chesapeake Energy Center (CEC) inactive Coal Combustion Residuals (CCR) surface impoundment Bottom Ash Pond (BAP) is being closed by removal of CCR pursuant to 40 CFR 257.102(c) and the Station's Closure Plan for this pond. Consistent with the requirements of 40 CFR §257.104(a)(2) for post-closure care of CCR surface impoundments, a Post-Closure Care Plan is not required for a surface impoundment that closed through CCR removal under 40 CFR 257.102(c). Therefore, a Post-Closure Care Plan for the BAP has not been developed.
