

**Groundwater Monitoring System Certification per 40 CFR §257.91(f)
Clover Power Station – Stage III Landfill
Clover, Virginia**

EPA's "Disposal of Coal Combustion Residuals from Electric Utilities" Final Rule, 40 CFR §257.91, requires the owner or operator of an existing Coal Combustion Residuals (CCR) unit to install a groundwater monitoring system. The owner or operator must obtain a certification from a qualified professional engineer stating that the groundwater monitoring system has been designed and constructed to meet the requirements of 40 CFR §257.91.

CERTIFICATION

Based on my review of the documentation described in 40 CFR §257.91(e)(1), I hereby certify that the groundwater monitoring system for the CCR unit located at Virginia Electric and Power Company's Clover Power Station (Stage III Landfill) in Clover, Virginia, as referenced in the *Groundwater Monitoring Plan* dated October 13, 2021, has been designed and constructed to meet the requirements of 40 CFR §257.91.

As used herein, the word "certify" shall mean an expression of the Engineer's professional opinion to the best of his or her information, knowledge, and belief, and does not constitute a warranty or guarantee by the Engineer.
