

**Groundwater Monitoring System Certification per 40 CFR §257.91(f)  
Mount Storm Power Station - Phase A Landfill  
Mount Storm, WV**

EPA's "Disposal of Coal Combustion Residuals from Electric Utilities" Final Rule, 40 CFR §257.91, requires the owner or operator of an existing Coal Combustion Residuals (CCR) unit to install a groundwater monitoring system. The owner or operator must obtain a certification from a qualified professional engineer stating that the groundwater monitoring system has been designed and constructed to meet the requirements of 40 CFR §257.91.

**Certification Statement 40 CFR § 257.91(f) – Design and Construction of a Groundwater Monitoring System for the CCR Management Area**

I, Donald O. Seward, Jr., being a Registered Professional Engineer in good standing in the State of West Virginia, do hereby certify, to the best of my knowledge, information, and belief that the information contained in this certification is prepared in accordance with the accepted practice of engineering. I certify, for the above-referenced CCR Unit, that the design and construction of the groundwater monitoring system meets the requirements of 40 CFR § 257.91.
