# Regulatory Requirement

---

Pursuant to 40 CFR 257.91(a), the Mt. Storm Power Station has installed a groundwater monitoring system around its Low Volume Waste Settling Ponds. Per 40 CFR 257.91(f), the owner or operator must obtain a certification from a qualified professional engineer stating the groundwater monitoring system has been designed and constructed to meet the requirements of 40 CFR 257.91.

# Certification

I, the undersigned West Virginia Professional Engineer, hereby certify that I am familiar with the technical requirements of 40 CFR 257.91. I also certify that it is my professional opinion that, to the best of my knowledge, information, and belief, the groundwater monitoring system has been designed and constructed in accordance with current good and accepted engineering practice(s) and standard(s) appropriate to the nature of the project and the technical requirements of 40 CFR 257.91.

For the purpose of this document, “certify” and “certification” shall be interpreted and construed to be a “statement of professional opinion”. The certification is understood and intended to be an expression of my professional opinion as a West Virginia Licensed Professional Engineer, based upon knowledge, information, and belief. The statement(s) of professional opinion are not and shall not be interpreted or construed to be a guarantee or a warranty of the monitoring system.
