1.0 CERTIFICATION

This Liner Documentation for the Possum Point Power Station's Ponds ABC was prepared by Golder Associates Inc. (Golder). The document and Certification/Statement of Professional Opinion are based on and limited to information that Golder has relied on from Dominion Energy and others, but not independently verified, as well as work products produced by Golder.

On the basis of and subject to the foregoing, it is my professional opinion as a Professional Engineer licensed in the Commonwealth of Virginia that this document has been prepared in accordance with good and accepted engineering practices as exercised by other engineers practicing in the same discipline(s), under similar circumstances, at the same time, and in the same locale. It is my professional opinion that the document is accurate and prepared consistent with the requirements in §257.71 of the United States Environmental Protection Agency's (EPA's) "Standards for the Disposal of Coal Combustion Residuals in Landfills and Surface Impoundments" published in the Federal Register on April 17, 2015 with an effective date of October 19, 2015 (40 CFR §257.71), as well as with the requirements in §257.100 resulting from the EPA's "Hazardous and Solid Waste Management System: Disposal of Coal Combustion Residuals From Electric Utilities; Extension of Compliance Deadlines for Certain Inactive Surface Impoundments; Response to Partial Vacatur" published in the Federal Register on August 5, 2016 with an effective date of October 4, 2016 (40 CFR §257.100).

The use of the word "certification" and/or "certify" in this document shall be interpreted and construed as a Statement of Professional Opinion, and is not and shall not be interpreted or construed as a guarantee, warranty, or legal opinion.

2.0 INTRODUCTION

This Liner Documentation was prepared for the Possum Point Power Station's (Station) inactive Coal Combustion Residuals (CCR) surface impoundments, Ponds ABC. This Liner Documentation was prepared in accordance with 40 CFR Part §257, Subpart D and is consistent with the requirements of 40 CFR §257.71 and 40 CFR §257.100(e)(3)(i).

Possum Point, owned and operated by Virginia Electric and Power Company d/b/a Dominion Energy Virginia (Dominion), is located in Prince William County, Virginia. The station includes inactive CCR surface impoundments, Ponds ABC, as defined by the Disposal of Coal Combustion Residuals from Electric Utilities; Final Rule and Direct Final Rule (40 CFR §257; the CCR rule).

3.0 PURPOSE

Pursuant to 40 CFR §257.71(b) and §257.100(e)(3)(i), a professional engineer certification is required for *Liner Design Criteria for Existing Coal Combustion Residuals (CCR) Surface Impoundments*, regarding the liner design of Ponds ABC at Possum Point.

4.0 CONCLUSIONS

It is Golder's opinion, based upon a review of available information, that Ponds ABC are considered to be inactive unlined CCR surface impoundments as that term is defined in 40 CFR §257.71(a)(3)(i). Specifically, Ponds ABC are not constructed with a liner that meets the requirements of 40 CFR §257.71(a)(1)(i), (ii), or (iii).

Established in 1960, Golder Associates is a global, employee-owned organization that helps clients find sustainable solutions to the challenges of finite resources, energy and water supply and management, waste management, urbanization, and climate change. We provide a wide range of independent consulting, design, and construction services in our specialist areas of earth, environment, and energy. By building strong relationships and meeting the needs of clients, our people have created one of the most trusted professional services organizations in the world.
