

**NOTIFICATION OF INTENT
FGD POND
WILLIAMS STATION
Goose Creek, South Carolina
USEPA Coal Combustion Residuals Rule**

November 30, 2020

Dominion Energy South Carolina (DESC) has submitted a request to United States Environmental Protection Agency (USEPA) to continue placing a certain CCR waste stream in the operating Williams Station FGD Pond after April 11, 2021 in accordance with the requirements of § 257.103(f)(1) – *Development of alternative capacity is technically infeasible*. To qualify under this paragraph, all the criteria specified in § 257.103(f)(1)(i) through (iv) have been met:

- (i) *No alternative disposal capacity is available on or off-site. An increase in costs or the inconvenience of existing capacity is not sufficient to support qualification under this section.*
- (ii) *(A) For units closing pursuant to §257.101(a) and (b)(1)(i), CCR and/or non-CCR waste streams must continue to be managed in that CCR surface impoundment because it was technically infeasible to complete the measures necessary to obtain alternative disposal capacity either on or off-site of the facility by April 11, 2021. (B) For units closing pursuant to §257.101(b)(1)(ii), CCR must continue to be managed in that CCR surface impoundment because it was technically infeasible to complete the measures necessary to obtain alternative disposal capacity either on or off-site of the facility by April 11, 2021.*
- (iii) *The facility is in compliance with all of the requirements of this subpart.*
- (iv) *The owner or operator of the CCR surface impoundment must submit documentation that the criteria in paragraphs (f)(1)(i) through (iii) of this section have been met by submitting to the Administrator or the Participating State Director.*

A Site-Specific Alternative Deadline to Initiate Closure Demonstration, meeting the criteria of §257.103(f)(1)(iv), has been submitted to the USEPA on 11/30/20. This notification fulfills the requirement outlined in 40 CFR §257.103 (f)(1)(ix) and has been placed in the Williams Station FGD Pond Operating Record and posted on the Dominion Energy CCR Rule Compliance Data & Information website (<https://www.dominionenergy.com/ccr>).
