

Dominion Energy
Voltage Optimization Program
(Part of our Grid Transformation Plan)

Important Electric Service Project Update

Date: _____

Work Request #: _____

Construction Starts Soon

- Construction to upgrade our existing facilities will begin in a few weeks, weather permitting.
- I will be your point of contact while construction activities occur. I can be reached at the number listed below.
- **Please see other side.**

Planned Outage

- An outage is necessary as we upgrade existing facilities.
- The outage will occur on _____, weather permitting.
- Work will occur between the hours of _____.
- Your home's electrical service will be disconnected for approximately _____ during this time.
- You don't need to be home, but please ensure there is access to your yard and meter.
- If you would like to schedule a specific time, please contact me.

Contact: _____

Phone: _____

Thank you for your cooperation as we move forward with our grid modernization efforts.

Voltage Optimization Program

Stages of Construction

1. Scheduling and Site Preparation

Stakes and flags mark the proposed route and equipment placement. VA811 (formerly Miss Utility) and survey crews will place colored flags and markings showing existing public and private underground utilities.

Color Codes for Underground Utility Marking

Red	ELECTRIC
Yellow	GAS, OIL, STEAM
Orange	COMMUNICATIONS, TV, ALARM
Blue	WATER
Purple	RECLAIMED WATER, IRRIGATION, SLURRY
Green	SEWERS, DRAINS
Pink	TEMPORARY, SURVEY MARKINGS
White	PROPOSED CABLE ROUTE

2. Construction Plan

3. Property Restoration

If restoration is needed, we will return to restore your property once construction is complete.
