Bristers-Minnieville Transmission Line Rebuild — Virtual Community Meeting

AT DOMINION ENERGY, we are committed to continually reviewing and analyzing our energy infrastructure to provide safe, reliable and affordable electricity to our neighbors. You are receiving this postcard because we have identified the need to rebuild and replace an existing transmission line with a new, higher voltage wire, and taller structures. The line has been in service since the 1940s and needs to be upgraded to continue providing reliable service to the area.

The existing line runs from a power station near Cromwell Drive and Seneca Lake Drive in southeast Fauquier County, or Bristers Substation, to a power station near Minnieville Elementary School in Prince William County, or Minnieville Substation.

In anticipation of increased energy demand in this area in the future, we will not only rebuild the structures but also upgrade the wire. This is necessary to ensure the wire is capable of conducting 230 kilovolts as opposed to its current 115 kilovolts. Structures will be required to be, on average, 40 feet taller.

To learn more about this project, we invite you to attend a virtual community meeting via Webex on Wednesday, June 29, 2022, from 6–7 p.m. During this meeting, you can learn more about our construction process, timelines, and ask questions to our subject matter experts.

Please know that we are dedicated to working safely and courteously in your community and we will continue to keep you updated on our progress.

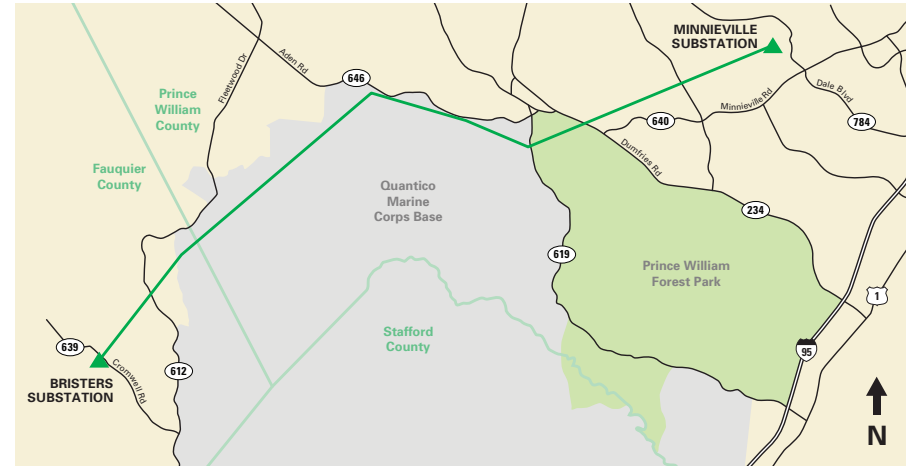

CONTACT US — Visit our website at [DominionEnergy.com/bristersminnieville](https://www.dominionenergy.com/bristersminnieville) for project updates. Or contact us by calling 888-291-0190 or sending an email to powerline@dominionenergy.com.

VIRTUAL COMMUNITY MEETING

Live Via Webex Events
Wednesday, June 29, 2022 • 6–7 p.m.

Join the meeting by visiting our website, [DominionEnergy.com/bristersminnieville](https://www.dominionenergy.com/bristersminnieville)

A recording will be available on the project website after the meeting.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

AT DOMINION ENERGY, protecting the grid and making it secure against natural and man-made acts is a top priority. We work alongside government officials to prepare for potential incidents that could affect our ability to provide electricity safely and reliably to the communities we serve. Learn how we're keeping you safe at powerlines101.dominionenergy.com.
