Buggs Island-Plywood 115 kV Electric Transmission Rebuild Project

AT DOMINION ENERGY, we are committed to maintaining the safety and health of our teams and neighbors. We want to inform you that the Buggs Island-Plywood 115 kilovolt (kV) construction informational meeting scheduled for March 19, 2020 has been cancelled. You are receiving this postcard because we previously sent you an invitation to this meeting.

As part of our commitment to safety, we believe it is in the public's best interest to cancel the meeting due to the ongoing public health concerns resulting from the spread of the COVID-19 virus, also known as the coronavirus.

Although we are not able to meet with the community in person at this time, we have published our open house boards and access plans to the project website at DominionEnergy.com/buggsplywood. Please contact us if you have any questions or concerns regarding the project. We will inform you if a new informational meeting will be held in the future. Until then, we will move forward with our construction plans.

Thank you in advance for your understanding and we apologize for any inconvenience.
