## **Proposed Carmel Church and Ruther Glen 230 kV Electric Transmission Projects**

Dear Neighbor,

At Dominion Energy, we are dedicated to keeping our communities up to date on projects in their area. You are receiving this letter because we would like to provide an update to the Carmel Church and Ruther Glen 230 kV Electric Transmission Projects.

Recently, our team made routing adjustments based on community feedback, after months of community outreach. The current routes are available for viewing in the enclosed maps. You may also view these maps digitally on MapChat by ERM, which is located on our project website, [DominionEnergy.com/carmelchurchrutherglen](https://DominionEnergy.com/carmelchurchrutherglen).

Routes adjusted since original announcement:

### **Ruther Glen Project**

- Route 1 (Pink Route) has been removed from consideration.
- Route 2 (Blue Route) has been removed from consideration.
- Route 3 (Orange Route) has been removed from consideration.
- Route 4 (Teal Route) has been adjusted from the original alignment.
- Route 4 Variation 1 (Dashed Teal Route) been renamed to Route 6 (Yellow Route) and adjusted from the original alignment.

### **Carmel Church**

- Route 2 (Green Route) has been adjusted from the original alignment.

We are working to file an application with the Virginia State Corporation Commission (SCC) in the coming weeks. Multiple solutions are being evaluated for each project, and one proposed solution with alternatives will be submitted to the SCC for final evaluation and approval.

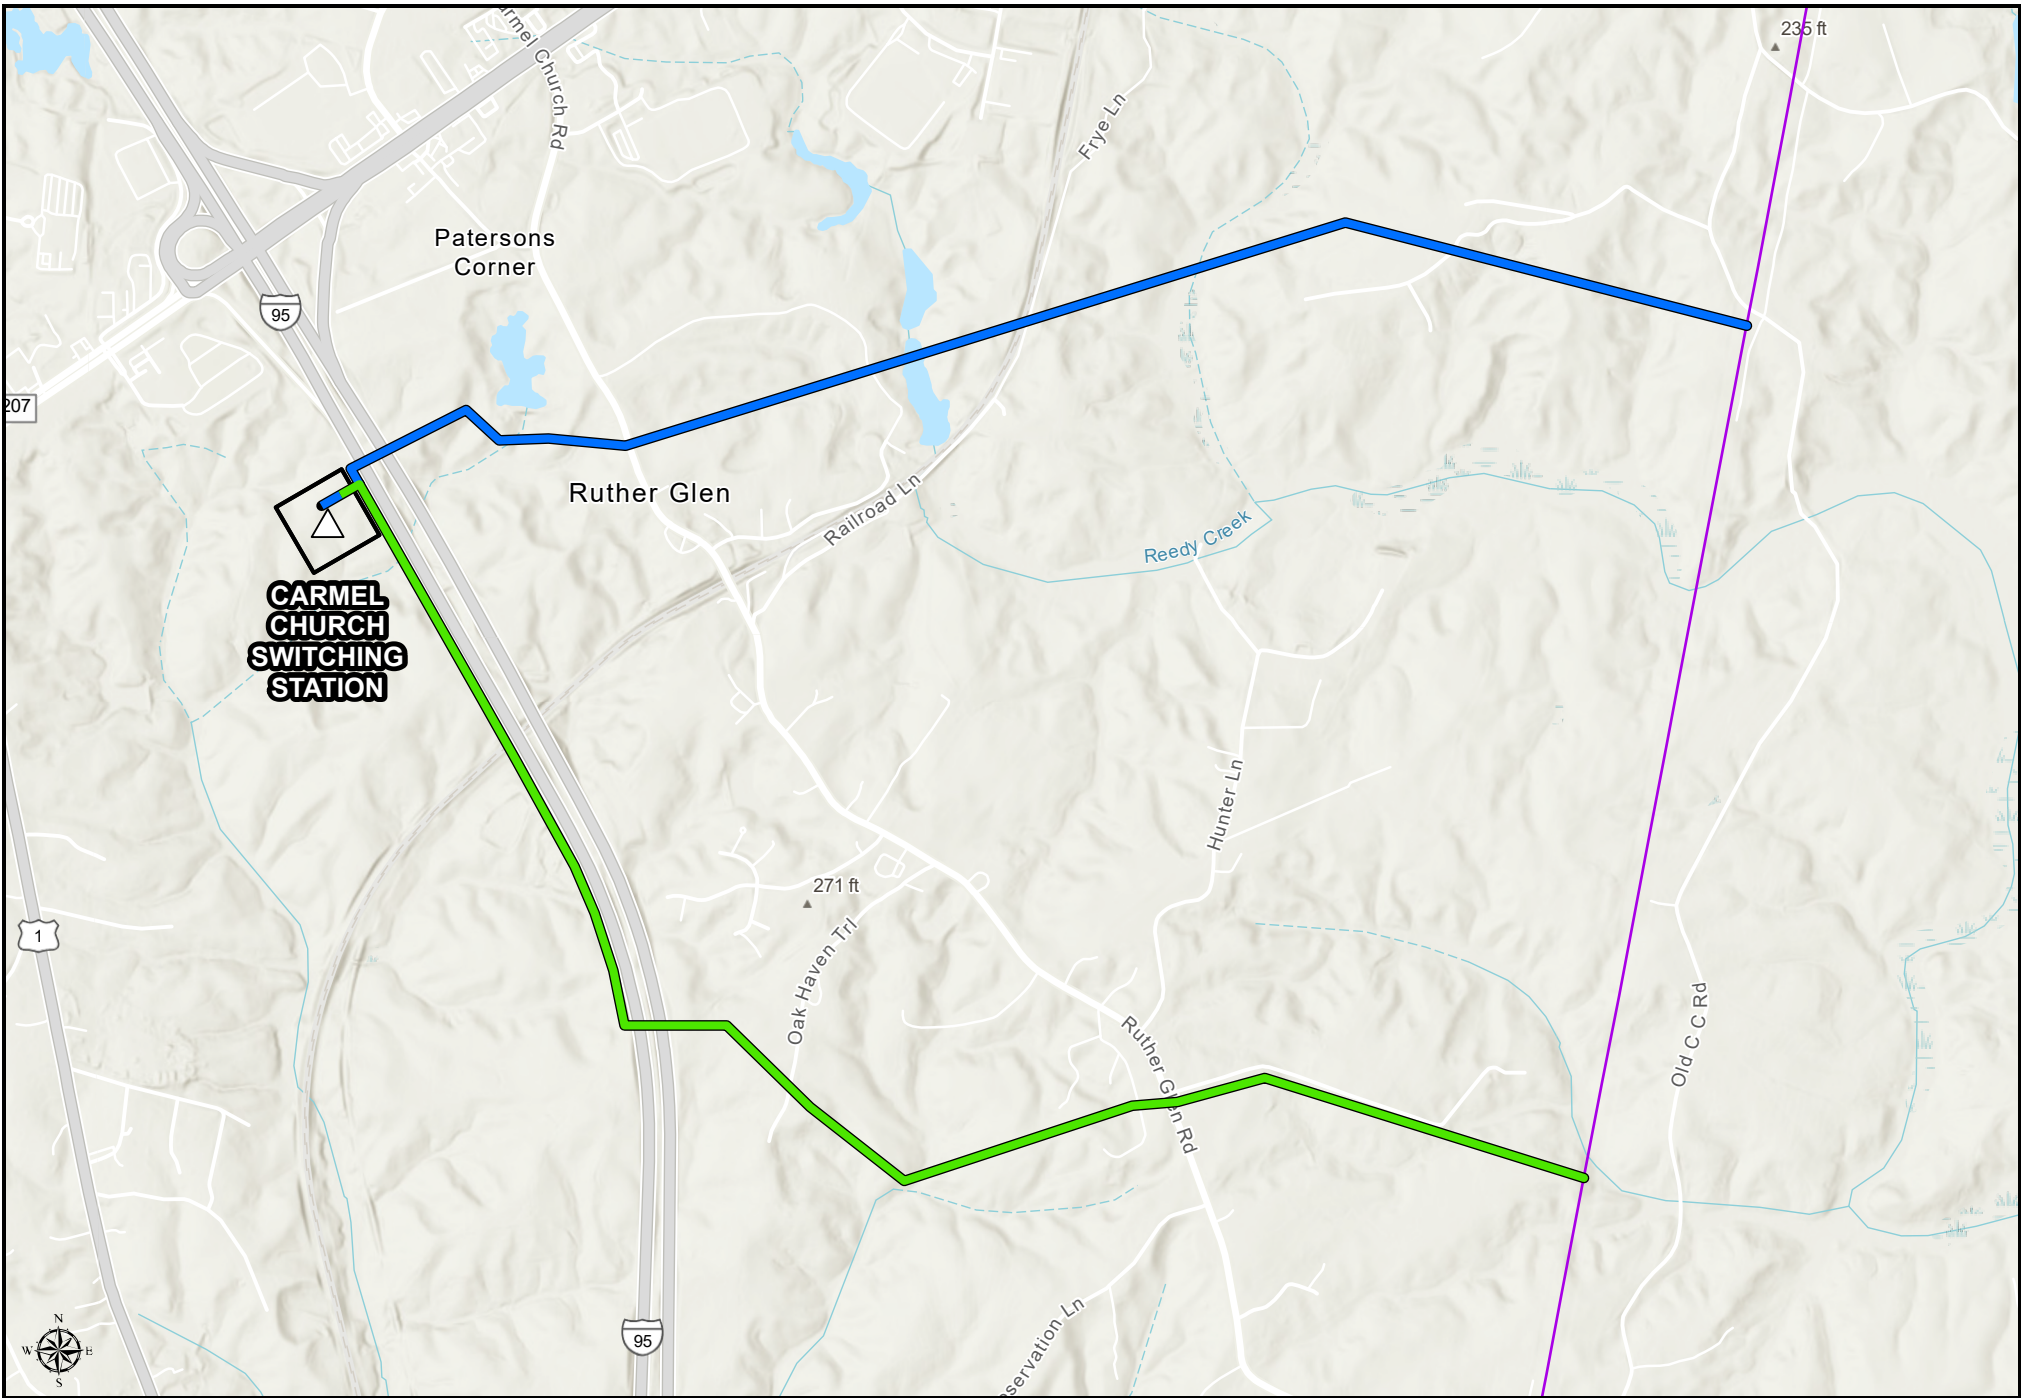

For questions about the project, contact our project team by email at [powerline@dominionenergy.com](mailto:powerline@dominionenergy.com) or by phone at 888-291-0190.

Thank you for your understanding while we plan for long-term reliability investments in your community.

Sincerely,

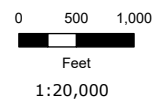

The Electric Transmission Project Team
