Carolina to S. Justice Branch Junction 115 kV / Partial 230 kV Electric Transmission Line Rebuild Project

AT DOMINION ENERGY, we cut trees and brush adjacent to our rights of way (the areas around power lines) to maintain safe and reliable electric service for our customers. Maintaining vegetation also provides quicker access for our crews during service restoration.

AT DOMINION ENERGY, protecting the grid and making it secure against natural and man-made acts is a top priority. We work alongside government officials to prepare for potential incidents that could affect our ability to provide electricity safely and reliably to the communities we serve. Learn how we're keeping you safe at powerlines101.dominionenergy.com.

You are receiving this postcard to inform you that danger tree work will be conducted this year. Danger trees are located outside the right of way but have potential to cause power outages to large areas. Trees and tree limbs that come in contact with electrical lines are a leading cause of power outages, especially during storms.

In the coming months, you may notice our forestry team in and around the right of way

identifying danger trees. Clearing these trees is necessary to prepare for the Carolina to S. Justice Branch Junction 115 kilovolt (kV) / Partial 230 kV Electric Transmission Line Rebuild Project.

If we need to access your property to remove danger trees, our forestry team or authorized contractors will contact you in person or by mail. We are committed to working safely and courteously on your property.

CONTACT US — Visit our website at DominionEnergy.com/Carolina for project updates. Or contact us by sending an email to powerline@dominionenergy.com or calling 888-291-0190.

We understand trees are an important part of your property. Our team is dedicated to being respectful and providing as much information as possible regarding our danger tree removal process. We work hard to minimize our footprint while maintaining grid reliability and safety of the community. If you have questions or concerns about the right of way corridor, please email etrow@dominionenergy.com or call 800-215-8032.
