Glebe Electric Transmission Project

This postcard is a follow-up to the one sent late last year with an updated start date.

Additional construction activity in your area will begin on February 17, 2025, as part of the ongoing Glebe Electric Transmission Project. The noisiest activities will occur during daytime hours, including excavation, hydro-vac, and welding.

MORE

We have received 24-hour work and noise variance permits from the City of Alexandria. Overnight work will be limited to generators, pumps, and other essential equipment, and crews will use noise blankets to mitigate noise.

For more information about this project, please visit our website at DominionEnergy.com/Glebe. If you have any concerns or complaints about noise, please get in touch with us directly.

Thank you for your understanding and support as we complete this important work.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
