## Goose Creek 500 kV Substation Expansion Project

At Dominion Energy, we are committed to providing project updates to the communities we serve. You are receiving this postcard because we have completed substation construction at our Goose Creek 500 Kilovolt (kV) Substation in Loudoun County, Virginia. This project will improve electric service reliability for all area customers.

MORE

The substation's footprint was expanded southward on company-owned property to accommodate new equipment. The electrical upgrades are now complete. In January, we will begin replacing the temporary construction fence with a new security fence that matches the rest of the perimeter. We will also restore the area. We expect to complete these final tasks by April 2024.

We recognize that at times construction activities were disruptive to the surrounding community. We thank you for your patience and understanding as we completed this critical reliability project.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

## RESTORATION TIMELINE

LATE 2023

Complete substation construction

JANUARY – APRIL 2024

Finish fence installation

Restore the site (including grass seed and straw, and planned landscaping)

Crews  
in your area

Infrastructure  
upgrades
