Hollymeade Substation Expansion

AT DOMINION ENERGY, we are committed to providing the latest information on projects in the communities we serve. You are receiving this postcard because we are preparing to expand Hollymeade Substation near the intersection of Timberwood Boulevard and Worth Crossing in Albemarle County, Virginia. We will not need to acquire any new land for this expansion, as construction will occur on our own property.

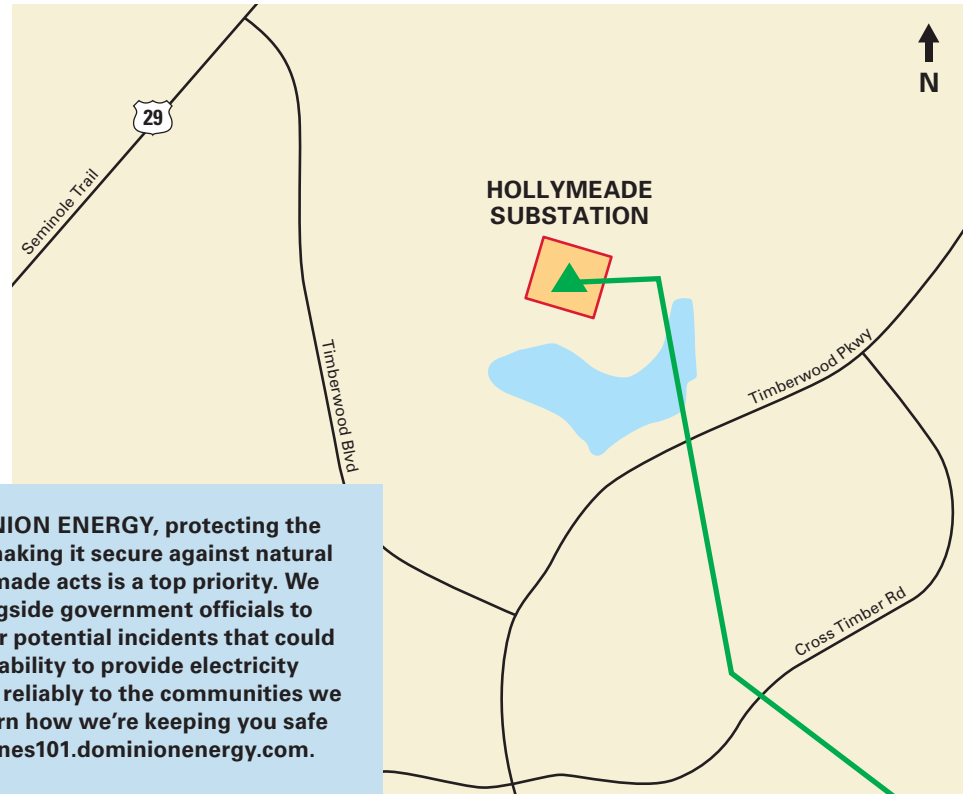

In order to relieve congestion on existing transmission lines, we will install new equipment at Hollymeade Substation. This new equipment will regulate electric current and improve reliability. We do not expect this project to interrupt your electric service. Pending all necessary permits and approvals, construction is expected to begin in Spring 2023 and conclude in Fall 2023.

As part of the Albemarle County permitting process, please save the date for a public meeting on October 13 where you can ask questions and interact with our project team. You will receive a separate invitation with more details soon.

Thank you for your patience as we complete this important project.

CONTACT US

Visit our website at [DominionEnergy.com/hollymeade](https://www.dominionenergy.com/hollymeade) for project updates. Or contact us by calling 888-291-0190 or sending an email to powerline@dominionenergy.com.

AT DOMINION ENERGY, protecting the grid and making it secure against natural and man-made acts is a top priority. We work alongside government officials to prepare for potential incidents that could affect our ability to provide electricity safely and reliably to the communities we serve. Learn how we're keeping you safe at [powerlines101.dominionenergy.com](https://www.powerlines101.dominionenergy.com).
